| Art. no. | Volume | Items per unit | Items per pallet |
|----------|--------|----------------|------------------|
| A101     | 0,4 L  | 12             | 1008             |

### Description

This carburettor cleaner has been specially developed to remove carbon, rubber and varnish from the carburettor. MPM Carburettor Cleaner helps prevent irregular stationary running and stalling of the engine and cleans the automatic choke. This carburettor cleaner should preferably be used when the engine is running.
