

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830 Date of issue: Revision date: 24/04/2012

version: 1.0

1.1. Product identifier	
Product name	: Industrial Gear Oil Polyglycol 220
Product code	: 39000PGE
Product group	: Blend
1.2. Relevant identified uses o	f the substance or mixture and uses advised against
1.2.1. Relevant identified uses	
Main use category	: Professional use, Industrial use, Consumer use
Industrial/Professional use spec	: Non-dispersive use Used in closed systems
Function or use category	: Lubricants and additives
1.2.2. Uses advised against	
No additional information available	

## etails of the supplier of the safety data she

MPM International Oil Company Cyclotronweg 1 2629 HN Delft - Nederland T +31 (0)15 2514030 - F +31 (0)15 2514031 info@mpmoil.nl - www.mpmoil.nl

#### 1.4. **Emergency telephone number**

Emergency number	: +31 (0)15 2514030 (08.00 - 1	: +31 (0)15 2514030 (08.00 - 17.00)		
Country	Official advisory body	Address	Emergency number	
Ireland	National Poisons Information Centre Beaumont Hospital	Beaumont Hospital Beaumont Road 9 Dublin	: +353 1 8379964	
United Kingdom	Guy's & St Thomas' Poisons Unit Medical Toxicology Unit, Centre Hospitalier Universitaire de Constantine	Avonley Road SE14 5ER London	0870 243 2241	

# **SECTION 2: Hazards identification**

2.1. Classification of the substance or mixture

## Classification according to Regulation (EC) No. 1272/2008 [CLP]

### Not classified

### Label elements 2.2.

This mixture is classified as not hazardous according to Regulation (EC) 1272/2008 [GHS].

#### 2.3. **Other hazards**

No additional information available

# **SECTION 3: Composition/information on ingredients**

### Substance 3.1.

Not applicable

### 3.2. **Mixture**

Name	Product identifier	%	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Blend of polyalkyleenglycol and additives		100	Not classified

Full text of H-statements: see section 16

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

SECTION 4: First aid measures	
4.1. Description of first aid measures	
After inhalation	: Allow breathing of fresh air. If you feel unwell, seek medical advice.
After skin contact	: Not expected to present a significant skin hazard under anticipated conditions of normal use. Rinse skin with water/shower.
After eye contact	: In case of contact with eyes, rinse immediately with plenty of flowing water for 10 to 15 minute holding eyelids apart.
After ingestion	: IF SWALLOWED: rinse mouth. Do NOT induce vomiting. Get immediate medical advice/attention.
4.2. Most important symptoms and effect	cts, both acute and delayed
Symptoms/injuries	: Not expected to present a significant hazard under anticipated conditions of normal use.
After ingestion	: Entering the lungs by ingestion or vomiting may cause severe lung damage.
4.3. Indication of any immediate medica	I attention and special treatment needed
	ns. Entering the lungs by ingestion or vomiting may cause severe lung damage.
SECTION 5: Firefighting measures	
5.1. Extinguishing media	
Suitable extinguishing media	: powder, alcohol-resistant foam, water spray, carbon dioxide.
Unsuitable extinguishing media	: Do not use a heavy water stream.
5.2. Special hazards arising from the su	bstance or mixture
No additional information available	
5.3. Advice for firefighters	
Precautionary measures fire	: Do not enter fire area without proper protective equipment, including respiratory protection.
Other information	: Use water spray/stream to protect personnel and to cool endangered containers. Exercise caution when fighting any chemical fire.
SECTION 6: Accidental release meas	sures
6.1. Personal precautions, protective eq	uipment and emergency procedures
6.1.1. For non-emergency personnel	
Protective equipment	: Wear suitable protective clothing and eye/face protection.
6.1.2. For emergency responders	
	· Wear respiratory protection. Wear suitable protective clothing and gloves
Protective equipment	: Wear respiratory protection. Wear suitable protective clothing and gloves.
Protective equipment 6.2. Environmental precautions	
Protective equipment 6.2. Environmental precautions Avoid release to the environment. Prevent sprea sewers or public waters.	
Protective equipment         6.2.       Environmental precautions         Avoid release to the environment. Prevent spreasewers or public waters.         6.3.       Methods and material for containment	iding over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enters
Protective equipment         6.2.       Environmental precautions         Avoid release to the environment. Prevent spreates sewers or public waters.         6.3.       Methods and material for containment         For containment	ading over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enter ent and cleaning up : Prevent spreading over great surfaces (e.g. by damming or installing oil booms).
Protective equipment         6.2.       Environmental precautions         Avoid release to the environment. Prevent spreates sewers or public waters.         6.3.       Methods and material for containment         For containment	<ul> <li>ading over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enter</li> <li>and cleaning up</li> <li>Prevent spreading over great surfaces (e.g. by damming or installing oil booms).</li> <li>Clean up with absorbent material (for example sand, sawdust, neutral absorbent granule, silic</li> </ul>
Protective equipment         6.2.       Environmental precautions         Avoid release to the environment. Prevent spreates sewers or public waters.         6.3.       Methods and material for containment         For containment         Wethods for cleaning up	ading over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enter ent and cleaning up : Prevent spreading over great surfaces (e.g. by damming or installing oil booms).
Protective equipment 6.2. Environmental precautions Avoid release to the environment. Prevent sprea sewers or public waters. 6.3. Methods and material for containment For containment Methods for cleaning up Other information	<ul> <li>ading over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid entersent and cleaning up</li> <li>Prevent spreading over great surfaces (e.g. by damming or installing oil booms).</li> <li>Clean up with absorbent material (for example sand, sawdust, neutral absorbent granule, silic gel).</li> </ul>
Protective equipment         6.2.       Environmental precautions         Avoid release to the environment. Prevent spreates         sewers or public waters.         6.3.       Methods and material for containment         For containment         Wethods for cleaning up         Other information         6.4.       Reference to other sections	<ul> <li>ading over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enter</li> <li>ent and cleaning up</li> <li>Prevent spreading over great surfaces (e.g. by damming or installing oil booms).</li> <li>Clean up with absorbent material (for example sand, sawdust, neutral absorbent granule, silic gel).</li> <li>Can be slippery on hard, smooth walking area.</li> </ul>
Protective equipment 6.2. Environmental precautions Avoid release to the environment. Prevent spreat sewers or public waters. 6.3. Methods and material for containment For containment Methods for cleaning up Other information 6.4. Reference to other sections Information on disposal - see Section 13. Information	<ul> <li>ading over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enter</li> <li>ent and cleaning up</li> <li>Prevent spreading over great surfaces (e.g. by damming or installing oil booms).</li> <li>Clean up with absorbent material (for example sand, sawdust, neutral absorbent granule, silic gel).</li> <li>Can be slippery on hard, smooth walking area.</li> </ul>
Protective equipment 6.2. Environmental precautions Avoid release to the environment. Prevent spreat sewers or public waters. 6.3. Methods and material for containment For containment Methods for cleaning up Other information 6.4. Reference to other sections Information on disposal - see Section 13. Informat 7.	<ul> <li>ading over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enter</li> <li>ent and cleaning up</li> <li>Prevent spreading over great surfaces (e.g. by damming or installing oil booms).</li> <li>Clean up with absorbent material (for example sand, sawdust, neutral absorbent granule, silic gel).</li> <li>Can be slippery on hard, smooth walking area.</li> </ul>
Protective equipment 6.2. Environmental precautions Avoid release to the environment. Prevent spreat sewers or public waters. 6.3. Methods and material for containment For containment Methods for cleaning up Other information 6.4. Reference to other sections Information on disposal - see Section 13. Informat 7. SECTION 7: Handling and storage	<ul> <li>ading over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enter</li> <li>ent and cleaning up</li> <li>Prevent spreading over great surfaces (e.g. by damming or installing oil booms).</li> <li>Clean up with absorbent material (for example sand, sawdust, neutral absorbent granule, silic gel).</li> <li>Can be slippery on hard, smooth walking area.</li> </ul>
Protective equipment         6.2.       Environmental precautions         Avoid release to the environment. Prevent spreates         sewers or public waters.         6.3.       Methods and material for containment         For containment         Wethods for cleaning up         Other information         6.4.       Reference to other sections         Information on disposal - see Section 13. Information         7.         SECTION 7: Handling and storage         7.1.       Precautions for safe handling	<ul> <li>ading over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enter</li> <li>ent and cleaning up</li> <li>Prevent spreading over great surfaces (e.g. by damming or installing oil booms).</li> <li>Clean up with absorbent material (for example sand, sawdust, neutral absorbent granule, silic gel).</li> <li>Can be slippery on hard, smooth walking area.</li> </ul>
Protective equipment         6.2.       Environmental precautions         Avoid release to the environment. Prevent spreates         sewers or public waters.         6.3.       Methods and material for containment         For containment         Wethods for cleaning up         Other information         6.4.       Reference to other sections         Information on disposal - see Section 13. Informat.         7.         SECTION 7: Handling and storage         7.1.       Precautions for safe handling         Precautions for safe handling	<ul> <li>ading over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enter</li> <li>ent and cleaning up <ol> <li>Prevent spreading over great surfaces (e.g. by damming or installing oil booms).</li> <li>Clean up with absorbent material (for example sand, sawdust, neutral absorbent granule, silic gel).</li> <li>Can be slippery on hard, smooth walking area.</li> </ol> </li> <li>ation on personal protective equipment - see Chapter 8. Information on safe handling - see Section <ol> <li>Avoid all unnecessary exposure. Both local exhaust and general room ventilation are usually</li> </ol> </li> </ul>
Protective equipment 5.2. Environmental precautions Avoid release to the environment. Prevent spreat sewers or public waters. 5.3. Methods and material for containment For containment Methods for cleaning up Other information 5.4. Reference to other sections Information on disposal - see Section 13. Informat SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Handling temperature	<ul> <li>ding over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enter</li> <li>ent and cleaning up <ol> <li>Prevent spreading over great surfaces (e.g. by damming or installing oil booms).</li> <li>Clean up with absorbent material (for example sand, sawdust, neutral absorbent granule, silic gel).</li> <li>Can be slippery on hard, smooth walking area.</li> </ol> </li> <li>ation on personal protective equipment - see Chapter 8. Information on safe handling - see Section <ol> <li>Avoid all unnecessary exposure. Both local exhaust and general room ventilation are usually required.</li> </ol> </li> </ul>
Protective equipment 6.2. Environmental precautions Avoid release to the environment. Prevent spread sewers or public waters. 6.3. Methods and material for containment For containment Methods for cleaning up Other information 6.4. Reference to other sections Information on disposal - see Section 13. Informat 7. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Handling temperature Hygiene measures	<ul> <li>ading over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enter</li> <li>ent and cleaning up <ol> <li>Prevent spreading over great surfaces (e.g. by damming or installing oil booms).</li> <li>Clean up with absorbent material (for example sand, sawdust, neutral absorbent granule, silic gel).</li> <li>Can be slippery on hard, smooth walking area.</li> </ol> </li> <li>ation on personal protective equipment - see Chapter 8. Information on safe handling - see Section <ol> <li>Avoid all unnecessary exposure. Both local exhaust and general room ventilation are usually required.</li> <li>&lt; 40 °C</li> <li>When using do not eat, drink or smoke. Wash hands before breaks and at the end of work.</li> </ol> </li> </ul>
Protective equipment 5.2. Environmental precautions Avoid release to the environment. Prevent spread sewers or public waters. 6.3. Methods and material for containment For containment Wethods for cleaning up Other information 6.4. Reference to other sections Information on disposal - see Section 13. Informat 7. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Handling temperature Hygiene measures 7.2. Conditions for safe storage, including	<ul> <li>ding over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enter</li> <li>ent and cleaning up <ol> <li>Prevent spreading over great surfaces (e.g. by damming or installing oil booms).</li> <li>Clean up with absorbent material (for example sand, sawdust, neutral absorbent granule, silic gel).</li> <li>Can be slippery on hard, smooth walking area.</li> </ol> </li> <li>ation on personal protective equipment - see Chapter 8. Information on safe handling - see Section <ol> <li>Avoid all unnecessary exposure. Both local exhaust and general room ventilation are usually required.</li> <li>&lt; 40 °C</li> <li>When using do not eat, drink or smoke. Wash hands before breaks and at the end of work.</li> </ol> </li> </ul>
Protective equipment 6.2. Environmental precautions Avoid release to the environment. Prevent spread sewers or public waters. 6.3. Methods and material for containment For containment Methods for cleaning up Other information 6.4. Reference to other sections Information on disposal - see Section 13. Informat 7. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Handling temperature Hygiene measures	<ul> <li>Adding over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enter</li> <li>ent and cleaning up <ol> <li>Prevent spreading over great surfaces (e.g. by damming or installing oil booms).</li> <li>Clean up with absorbent material (for example sand, sawdust, neutral absorbent granule, silic gel).</li> <li>Can be slippery on hard, smooth walking area.</li> </ol> </li> <li>ation on personal protective equipment - see Chapter 8. Information on safe handling - see Section <ol> <li>Avoid all unnecessary exposure. Both local exhaust and general room ventilation are usually required.</li> <li>&lt; 40 °C</li> <li>When using do not eat, drink or smoke. Wash hands before breaks and at the end of work.</li> </ol> </li> </ul>
Protective equipment 6.2. Environmental precautions Avoid release to the environment. Prevent spread sewers or public waters. 6.3. Methods and material for containment For containment Wethods for cleaning up Other information 6.4. Reference to other sections Information on disposal - see Section 13. Informat 7. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Handling temperature Hygiene measures 7.2. Conditions for safe storage, includin Technical measures	<ul> <li>ading over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enterement and cleaning up <ol> <li>Prevent spreading over great surfaces (e.g. by damming or installing oil booms).</li> <li>Clean up with absorbent material (for example sand, sawdust, neutral absorbent granule, silic gel).</li> <li>Can be slippery on hard, smooth walking area.</li> </ol> </li> <li>ation on personal protective equipment - see Chapter 8. Information on safe handling - see Sectio <ol> <li>Avoid all unnecessary exposure. Both local exhaust and general room ventilation are usually required.</li> <li>&lt; 40 °C</li> <li>When using do not eat, drink or smoke. Wash hands before breaks and at the end of work.</li> </ol> </li> <li>Information at critical points.</li> </ul>
Protective equipment 6.2. Environmental precautions Avoid release to the environment. Prevent spreat sewers or public waters. 6.3. Methods and material for containment For containment Methods for cleaning up Other information 6.4. Reference to other sections Information on disposal - see Section 13. Informat 7. SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Handling temperature Hygiene measures 7.2. Conditions for safe storage, includin Fechnical measures Storage conditions	<ul> <li>Adding over great surfaces (e.g. by damming or installing oil booms). Notify authorities if liquid enter</li> <li>ent and cleaning up <ol> <li>Prevent spreading over great surfaces (e.g. by damming or installing oil booms).</li> <li>Clean up with absorbent material (for example sand, sawdust, neutral absorbent granule, silic gel).</li> <li>Can be slippery on hard, smooth walking area.</li> </ol> </li> <li>ation on personal protective equipment - see Chapter 8. Information on safe handling - see Section <ol> <li>Avoid all unnecessary exposure. Both local exhaust and general room ventilation are usually required.</li> <li>&lt; 40 °C</li> <li>When using do not eat, drink or smoke. Wash hands before breaks and at the end of work.</li> </ol> </li> <li>ng any incompatibilities <ul> <li>Provide for sufficient ventilation and punctiform suction at critical points.</li> <li>Store in original container.</li> </ul> </li> </ul>

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

<b>SECTION 8: Exposure controls/pe</b>	ersonal protection
8.1. Control parameters	
Additional information	: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace
8.2. Exposure controls	
Materials for protective clothing	: Type of chemical protective gloves to choose depends on the concentration and quantity of dangerous substances as well as on work place specifications
Hand protection	: Wear suitable gloves
Eye protection	: Safety glasses
Skin and body protection	: Overall
Respiratory protection	: Not necessary with sufficient ventilation

SECTION 9: Physical and chemical properties			
9.1. Information on basic physical and	9.1. Information on basic physical and chemical properties		
Physical state	: Liquid		
Appearance	: clear.		
Colour	: No data available		
Odour	: characteristic.		
Odour threshold	: No data available		
рН	: No data available		
Relative evaporation rate (butylacetate=1)	: No data available		
Melting point	: No data available		
Freezing point	: -39 °C		
Boiling point	: > 200 °C		
Flash point	: 310 °C		
Auto-ignition temperature	: No data available		
Decomposition temperature	: No data available		
Flammability (solid, gas)	: No data available		
Vapour pressure	: No data available		
Relative vapour density at 20 °C	: No data available		
Relative density	: No data available		
Density	: 1069 g/l @ 15°C		
Solubility	: Water: practically insoluble		
Log Pow	: >6		
Viscosity, kinematic	: 220 mm²/s @ 40°C		
Viscosity, dynamic	: No data available		
Explosive properties	: No data available		
Oxidising properties	: No data available		
Explosive limits	: No data available		
9.2 Other information			

9.2. Other information

No additional information available

ECTION 10: Stability and reactivity			
.1. Reactivity			
one under normal use.			
.2. Chemical stability			
e product is stable at normal handling- and storage conditions.			
.3. Possibility of hazardous reactions			
additional information available			
.4. Conditions to avoid			
one under normal use.			
.5. Incompatible materials			
Oxidizing substances. Acids and bases.			

Safety Data Sheet

according to Regulation (EC) No. 1907/2006 (REACH) with its amendment Regulation (EU) 2015/830

# 10.6. Hazardous decomposition products

On burning: release of harmful/irritant gases/vapours e.g.: carbon monoxide - carbon dioxide.

SECTION 11: Toxicological information		
11.1. Information on toxicological effects		
Acute toxicity	: Not classified	
Industrial Gear Oil Polyglycol 220		
LD50 oral rat	> 5000 mg/kg	
LD50 dermal rabbit	> 5000 mg/kg	
Skin corrosion/irritation	: Not classified	
Serious eye damage/irritation	: Not classified	
Respiratory or skin sensitisation	: Not classified	
Germ cell mutagenicity	: Not classified	
Carcinogenicity	: Not classified	
Reproductive toxicity	: Not classified	
Specific target organ toxicity (single exposure)	: Not classified	
Specific target organ toxicity (repeated exposure)	: Not classified	
Aspiration hazard	: Not classified	
Industrial Gear Oil Polyglycol 220		
Viscosity, kinematic	220 mm²/s @ 40°C	

# **SECTION 12: Ecological information**

12.1. Toxicity	
Industrial Gear	Polyglycol 220
LC50 fish 1	> 100 mg/l

12.2. Persistence and degradability			
Industrial Gear Oil Polyglycol 220			
Persistence and degradability	Poorly biodegradable.		
12.3. Bioaccumulative potential			
Industrial Gear Oil Polyglycol 220			
Log Pow	> 6		
12.4. Mobility in soil			
No additional information available			
12.5. Results of PBT and vPvB assessment			
No additional information available			
12.6. Other adverse effects			
No additional information available			
SECTION 13: Disposal considerations			
13.1. Waste treatment methods			
Regional legislation (waste) :	Waste disposal according to official state regulations.		
European List of Waste (LoW) code :	13 02 00 - Waste engine, gear and lubricating oils. 13 02 05- Mineral-based non-chlorinated engine, gear and lubricating oils. 15 01 10 Packaging containing residues of or contaminated by dangerous substances		
SECTION 14: Transport information			
In accordance with ADR / RID / IMDG / IATA / ADN	l		
14.1. UN number			
Not regulated for transport			
14.2 UN proper shipping name			

17.6.	on proper snipping name		
•	Shipping Name (ADR) Shipping Name (IMDG)	:	Not applicable Not applicable
